

## Anticipation Guide: Point-of-Sale Systems

Prior to the start of this lesson, read each statement and place a check mark by the statement you THINK is true. At the conclusion of the lesson reread each statement and place a check mark by the statements you KNOW are true. Provide information that PROVES other statements are not true. You may use the back of this sheet if additional space is needed.

Knowledge before the lesson	STATEMENTS	Knowledge after lesson
	1. Technology in foodservice has been difficult to integrate because the industry is labor-intensive.	
	2. Equipment technology will allow food to be cooked faster and better.	
	3. A Point-of-sale system is a computerized system for recording an order at the place where the order is taken.	
	4. A POS system can send orders to the kitchen and record payments.	
	5. A POS System can track inventory.	
	6. A POS system cannot handle accounting procedures.	
	7. A POS system can be used as a time clock for employees.	
	8. All restaurants display hours of operation on their website.
