## Food Safety: Infection vs. Intoxication

Define food infection and intoxication and identify the most common microorganisms.

| Food Infection | Food Intoxication |
|----------------|-------------------|
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
|                |                   |
