

## Multimedia Presentation Project

You may work individually or collaboratively in teams of two to create a multimedia presentation. For this project, we will exclude PowerPoint™ presentations because I want you to explore and use alternate media presentation tools. You will be required to present your project to a class at an observation site or a class at the high school.

Title of lesson: \_\_\_\_\_

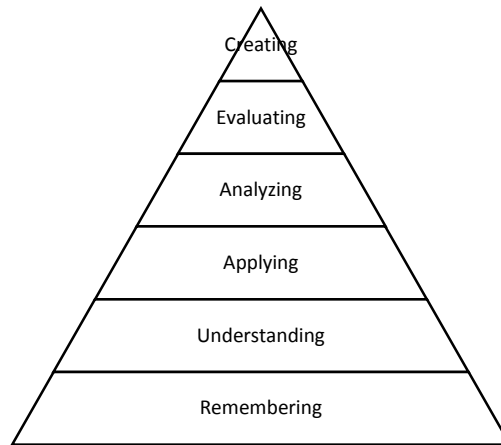

Objective of lesson: \_\_\_\_\_

Bloom's Taxonomy levels in presentation: \_\_\_\_\_

The multimedia presentation should include:

- designing and delivering a 15-minute lesson using multimedia tools
- teaching a skill or knowledge represented in the TEKS for a specific subject or grade level and objective using the Bloom's Taxonomy levels
- creative medium with a logical sequence
- real-world relevance
- innovative use of technology
- title of lesson
- objective of lesson
- step-by-step directions for how your presentation will be used in the lesson

You will be assessed with Rubric for Multimedia Presentation.

Revised Bloom's Taxonomy
