How to Teach Texas Style Project

- Locate and print the TEKS for each of two high school courses you will attend tomorrow
- Pay EXTRA attention to the class information/activities presented to you by each of your instructors
- Write a brief description of each lesson with activities with which you are presented
- Based on the lesson activities, determine which TEKS/student expectations your instructors addressed
- Using the terms learned, determine the type of instructional strategies used by your instructors
- Analyze, reflect on and document why the lessons were effective; make suggestions for the lesson or activity which could be improved
- Present your findings to the class

Draft an outline of your project below:

The form consists of a large, light grey arrow pointing to the right. Inside the arrow, there are five empty, rounded rectangular boxes arranged horizontally, intended for the student to draft an outline of their project.
